The shipments at 12:30 p.m. and 7 p.m. on 6 October which according to the present report, went vice versa and the shipment which, at 6:30 p.m. on 7 October, passed through Brandenburg, cannot be accounted for. The two first mentioned shipments are believed to have gone toward east, rather than west the more as the train at 7 p.m. on 6 October probably carried tanks of the division.
